TITLE Title is engaging while capturing what the study is all about in very few words.	The title shown what the study is all about in very few words with correctly.	The title express in a few words regarding the study of words with less accurate.	The title of the study show respect with words that need some improvement.	The title of the study show respect with words that require overall improvements.	The title does not point to study the words that need overall improvement.
ABSTRACT Abstract summarizes all important ideas and findings in no more than 250 words	Abstract elaborates on all the important ideas and findings properly in the number of words required.	Abstract leaves some important ideas and findings and expressed in number of words required.	Abstract leaves a lot of important ideas and findings and expressed in number of words required.	Abstract leaves many important ideas and inventions and is written in a number of words that do not fit.	Abstract not elaborate on important ideas and findings and expressed in number of words inappropriate.
INTRODUCTION Describe introduction and background of the project clearly	Describe an excellent introduction and background of the project clearly.	Describe a good introduction and background of the project clearly.	Describe a introduction and background of the project unclearly.	Describe a introduction and background of the project not clearly.	Describe a bad introduction and background of the project not clearly.
State the problem statements and objectives of the project clearly	State an excellent problem statements and objectives of the project clearly.	State a good problem statements and objectives of the project clearly.	State a problem statements and objectives of the project unclearly.	State a problem statements and objectives of the project not clearly.	State a bad problem statements and objectives of the project and not clearly.
Describe the limitation and research interests of the project clearly	Describe an excellent limitation research interests of the project clearly.	Describe a good limitation research interests of the project clearly.	Describe a limitation research interests of the project unclearly.	Describe a limitation research interests of the project not clearly.	Describe a bad limitation research interests of the project and not clearly.
LITERATURE REVIEW Each cited study related to the topic and to other studies clearly	The writing of this study highlights the diversity of specialized reading materials involving wider and critical scientific literature and reflects past studies.	The writing of this study highlights the diversity of specialized reading materials that involve adequate and important scientific literature and reflects past studies.	The writing of this study highlights the simplicity of special reading materials involving adequate scientific literature and some past studies.	The writing of this study highlights some of the specialized reading materials that involve scientific literature and a few past studies.	The writing of this study does not highlight special reading materials involving scientific literature and past studies.
Make citation from a valid reference source	All citations are accurately and correctly represented in the reference section.	There is one or two citations that are incorrectly stated and are listed in the reference section.	There are some incorrect citations in the source and are missing in the reference section.	There are only a few citations and incorrect sources and none in the reference section.	There is no citation and invalid reference list.
Provides relevant information from various sources to relate with the project	Provides complete accurate and relevant information; based firmly on extensive and careful research using multiple sources.	Provides complete, accurate, and relevant information; based on adequate research using more than one resource.	Provides accurate, and relevant information; based on adequate research.	Provides basic information, some which may be incorrect and/or irrelevant; based on minimal research.	Piece is lacking information and/or information is inaccurate and irrelevant.

Skills / Aspects	Excellent	Very Good	Good	Fair	Unsatisfactory

METHODOLOGY Illustrate the method used in the project clearly	Illustrate an excellent method used in the project clearly.	Illustrate a good method used in the project clearly.	Illustrate a method used in the project unclearly.	Illustrate method used in the project not clearly.	Illustrate a bad method used in the project and not clearly.
Explain the method of the project clearly	Explain an excellent method of the project clearly.	Explain a good method of the project clearly.	Explain a method of the project unclearly.	Explain method of the project not clearly.	Explain a bad method of the project and not clearly.
DISCUSSION Explain the idea of the project clearly to show the understanding of the project	Always analyze and integrate acquired information with own ideas.	Usually analyze and integrate acquired information with own ideas.	Often analyze and integrate acquired information with own ideas.	Sometimes analyze and integrate acquired information with own ideas.	Hardly analyze and integrate acquired information with own ideas.
Recommend the best solution to produce the project outcomes	Recommend the excellent solution to produce the project outcomes.	Recommend the very good solution to produce the project outcomes.	Recommend the good solution to produce the project outcomes.	Recommend the fair solution to produce the project outcomes.	Recommend the bad solution to produce the project outcomes.
CONCLUSION Explain the expected outcome with own idea and summerize the project clearly	Always outcome with own ideas and summerize the project clearly.	Usually outcome with own ideas and summerize the project clearly.	Often outcome with own ideas and summerize the project clearly.	Sometimes outcome with own ideas and summerize the project clearly.	Hardly outcome with own ideas and summerize the project clearly.
FORMAT Writing is clear and easy to follow within each section, and with clear and appropriate transitions from section to section.	Writing is clear and easy to follow in each section, and with clear and appropriate transitions from section to section.	Writing is clear and easy to follow in each section, but there are less obvious transition and appropriate from the section to section.	The writing is clear, but there are some parts of the transition is less clear and consistent from section to section.	Writing is not clear and also have sections and transitions are less clear and consistent from section to section.	Writing and the transition is not clear and consistent from the top to the bottom.
Charts and tables have headings and labels, descriptive numbered captions at the top. Figures have descriptive numbered captions at the bottom.	Charts and tables have headings and labels, descriptive numbered captions at the top. Figures have descriptive numbered captions at the bottom.	Some charts and tables do not have headings and labels but have descriptive numbered captions at the top and figures have descriptive numbered captions at the bottom.	Many charts and tables do not have headings and labels but have descriptive numbered captions at the top and figures have descriptive numbered captions at the bottom.	Charts and tables do not have headings and labels but have descriptive numbered captions at the top and figures have descriptive numbered captions at the bottom.	Charts and tables do not have headings and labels, not have descriptive numbered captions at the top and figures descriptive numbered captions at the bottom.
Reference list using standard APA format	APA formatted reference list using the correct standard.	A little reference list using a standard APA format not properly.	Most reference list using a standard APA format not properly.	Some reference to the standard APA format.	The list of references does not use standard APA format.
